WASTE MANAGEMENT - RECYCLING

ABOUT US

Four Seasons FZE has started its operation in 2019 in United Arab Emirates under the headship of Mr. Anshul Goel, with a focus to turn waste into useful. He applied his years of experience and expertise in waste management & Polymer distribution hence making Four Seasons FZE best and the absolute service provider for all your commercial and corporate needs. It's his acumen, knowledge and expertise along with the support of trained and talented people along with wide global network that the company has its name, renowned among the reliable suppliers.

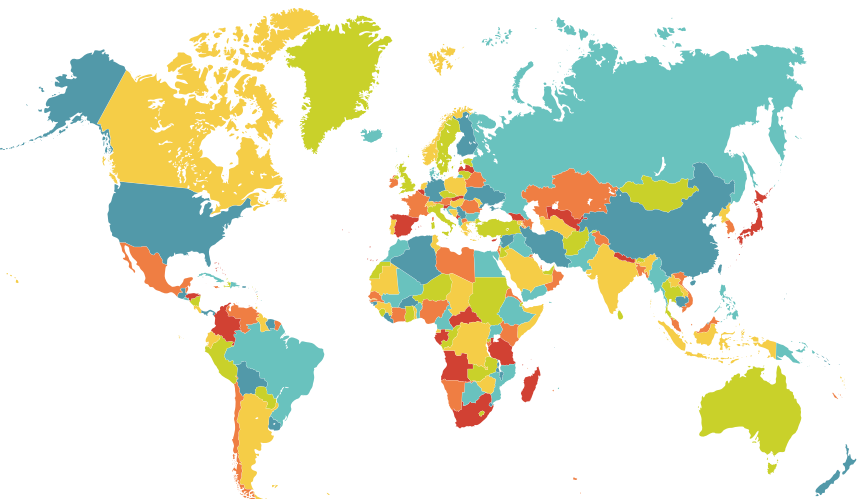

From Polymers, Production Waste, Plastic Scrap, Metal Scrap & Stock lots, we have everything available under our name, sourced from the trusted sources. As the reputed trader, we serve bulk quantity at competitive market prices & assist various industries to get maximum realization out of their waste by selling it for reusable application & recycling industries to bring the new life to waste.

Certifications

Markets Covered

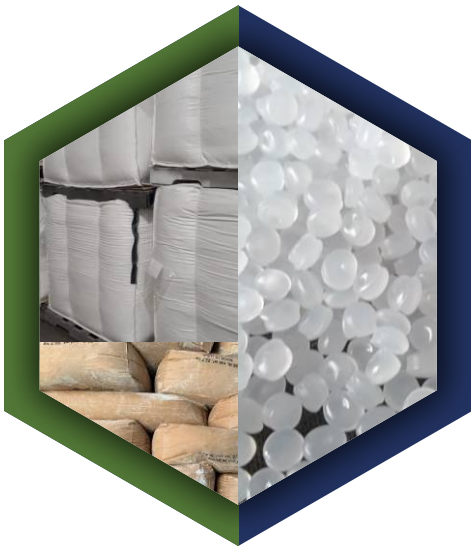

- Asia
- Europe
- South America
- North America
- Africa

Four Seasons FZE is acting as trader / indentor for various prime & non prime grades in polymers (plastic raw materials) & chemicals. Having vast clientele base and sourcing, globally. Our materials lists are as below:

PRIME GRADES

- Polyvinyl Chloride (PVC-Suspension Grade)
K 57 | K 67 | K 70
- Polyvinyl Chloride (PVC-Emulsion Grade)
K 67
- Polypropylene (PP-HOMO, COPO Grades)
MFI: 3-4 | 10-12 | 25-35 | 45-100
- Low Density Polyethylene (LDPE)
MFI: 2-4
- High Density Polyethylene (HDPE)
MFI: 0.4-0.8 | 8-12
- High Impact Polystyrene (HIPS)
MFI: 3-4

NON-PRIME / OFF-GRADES

- Polyvinyl Chloride (PVC-Suspension Grade)
K 67
- Polyvinyl Chloride (PVC-Emulsion Grade)
K 67
- Polypropylene (PP-HOMO, COPO Grades)
MFI: 3-4 | 10-12 | 25-35 | 45-100
- Low Density Polyethylene (LDPE)
MFI: 2-4
- High Density Polyethylene (HDPE)
MFI: 0.4-0.8 | 8-12
- High Impact Polystyrene (HIPS)
MFI: 3-4

PIGMENT / CHEMICAL

- Titanium dioxide (TiO₂)
Anatase | Rutile
- Zinc oxide (ZnO)
Activated | Non-activated
- Rubber Grades
SBR | NBR
- DICUMYL PEROXIDE (DCP)
- Master Batches

WASTE MANAGEMENT

Four Seasons FZE trades for various Post Industrial (plant wastes), Post Commercial , Post Consumer wastes in plastics & plastic products. Having vast clientele base and sourcing, globally. Our materials lists are as below that we handle:

LUMPS

- Polyvinyl Chloride (PVC-S)
Soft | Rigid- All Colour
- Polypropylene (PP)
All Industries - All Colour
- Low Density Polyethylene (LDPE)
Blow grade Natural / White
- High Density Polyethylene (HDPE)
All Industries - All Colour
- High Impact Polystyrene (HIPS)
Extrusion Grade - All Colour
- Polyethylene Terephthalate (PET)
Bottle Grade - Natural

BALES

- Polypropylene (PP)
Post Industrial | Post Commercial | Post Consumer
- High Density Polyethylene (HDPE)
Post Industrial | Post Commercial | Post Consumer
- High Impact Polystyrene (HIPS)
Post Industrial | Post Commercial | Post Consumer

RECYCLING

REGRANULATES

- Polyvinyl Chloride (PVC-S)
Soft | Rigid- All Colour
- Polypropylene (PP)
MFI: 45-100 | All Colour
- High Impact Polystyrene (HIPS)
Extrusion Grade: 3-4 MFI | All Colour

Four Seasons FZE is not only trading but also getting many qualities recycled through multiple producers / recyclers on job basis & selling it as reusable plastic raw material (Regranulates & Regrinds) to clients for their production. Our materials lists are as below, that we handle:

REGRINDS

- Polyvinyl Chloride (PVC-S)
Post Industrial
- Polypropylene (PP)
Post Industrial | Post Commercial | Post Consumer
- High Density Polyethylene (HDPE)
Post Industrial | Post Commercial | Post Consumer
- High Impact Polystyrene (HIPS)
Post Industrial | Post Commercial | Post Consumer
- Zero Halogen Flame Retardant (ZHFR/LSOH)
Post Industrial

Four Seasons FZE trades for various Post Industrial (plant wastes) in engineering plastics & plastic products. Having vast clientele base and sourcing, globally. Majority of our materials arise out of automotive & electronics sector.

Our range of materials includes both non-filled & filled (GF , FR) :

- PTFE (Polytetrafluoroethylene)
- PC+ABS PolyCarbonate (PC) and Acrylonitrile Butadiene Styrene (ABS)
- PBT (PolyButylene Terephthalate)
- POM (PolyOxyMethylene)
- PMMA (PolyMethyl MethAcrylate)
- PA (PA6, PA66) (PolyAmide)
- Polycarbonate (PC)
- Acrylonitrile Butadiene Styrene (ABS)

Four Seasons FZE is a leading trader in battery scrap, specializing in the recycling and waste management of critical materials. With a global clientele and extensive sourcing network, we focus on the environmentally responsible handling of Lead-Acid and Lithium-Ion Batteries, commonly used in automotive, industrial sectors, modern electronics, and electric vehicles.

Our range of battery scrap materials includes:

- Lead-Acid Batteries
- Lithium-Ion Batteries

At Four Seasons FZE, we are committed to processing battery scrap efficiently and sustainably, ensuring all materials are managed with the highest standards of care. Contact us to discuss your battery scrap needs and explore how we can assist with your recycling and waste management initiatives.

METAL SCRAP

Four Seasons FZE is one of the foremost Metal Scrap traders is the destination to stop by. We offer ferrous or non-ferrous metal which we obtained from global vendors and supply them to those who are engaged in metal recycling and manufacturing work. Our metal scrap range is vast and includes several types. As a reliable Recycled Metal Scrap Trader, we trade scrap suitable for recycling various products and serve many purposes, which minimise any sort of wastage. Having various grades, sizes, and other configurations. Being one of the preeminent traders we take all the load of timely logistics and fulfil the same. Our materials lists are as below, that we handle:

- Mix Motor
- Self Alternator
- Big Motor
- Small Motor
- Aluminium Body Motor
- Silicone Sheet Scrap
- Train Motors
- Motor Rotors
- Transformer Scrap
- Copper Scrap
- Aluminum Scrap
- Brass Scrap
- Cable Scrap
- Radiator
- Ac Motor
- DC Motor
- Drill heads (Tungsten)
- Stators

& other related Metal Scrap

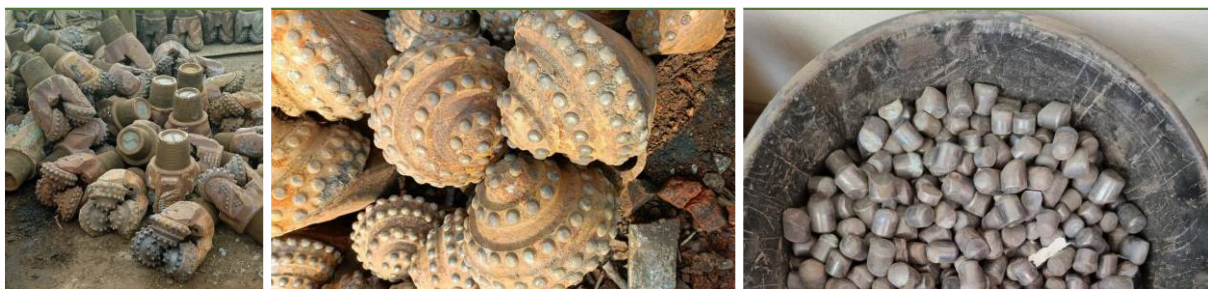

Four Seasons FZE trades for various Mining Metals Scrap & Ores. Mainly sourced from reputed Mining Facilities.

ORES

- Silver
- Copper
- Gold
- Zinc
- Manganese
- Nickel

MINING METALS SCRAPS

- Steel Scrap Alloys Scraps (304, 316, 310, 446)
High Chrome | High Strength | High Nickel
High Manganese | H Series Steel (hot Die Steel)
- Ferro Alloys Scraps
Ferro Moly | Ferro Nickel | Ferro Vanadium | Ferro Niobium
- Drilling equipment scraps:
Drill rods | Drill heads | Drill bits | Liner plates
Tungsten / Carbide attachments
- Molybdenum Alloys Scraps
- Nickel Alloys Scraps

USED TYRE SCRAP

Four Seasons FZE trades for various USED TYRE SCRAP. Mainly sourced from European-UK & middle east region.

Our materials lists are as below that we handle as of now:

- Baled Tyre
- 3 Piece Cut
- Shredded

| RECYLED PRODUCTS & APPLICATIONS

FUEL OIL

It's also known as tyre oil, pyrolysis oil, heating oil or furnace oil. The application is heating fuel for industries such as power plant, cement plant, steel plant, metallurgical plant, glass plant etc.

CARBON BLACK

Raw material for rubber and plastic industries. Used as heating fuel.

STEEL WIRE

Easy to sell to scrap metal dealers/Recyclers

COMBUSTIBLE GAS

Combustible gas generated from production process is routed to heating system as fuel supply.

TEXTILE RAGS

Four Seasons FZE trades for various OLD & USED PRE-MUTILATED & FUMIGATED Textiles RAGS. Mainly sourced from reputed Western-European mutilation facilities.

Our materials lists are as below that we handle as of now:

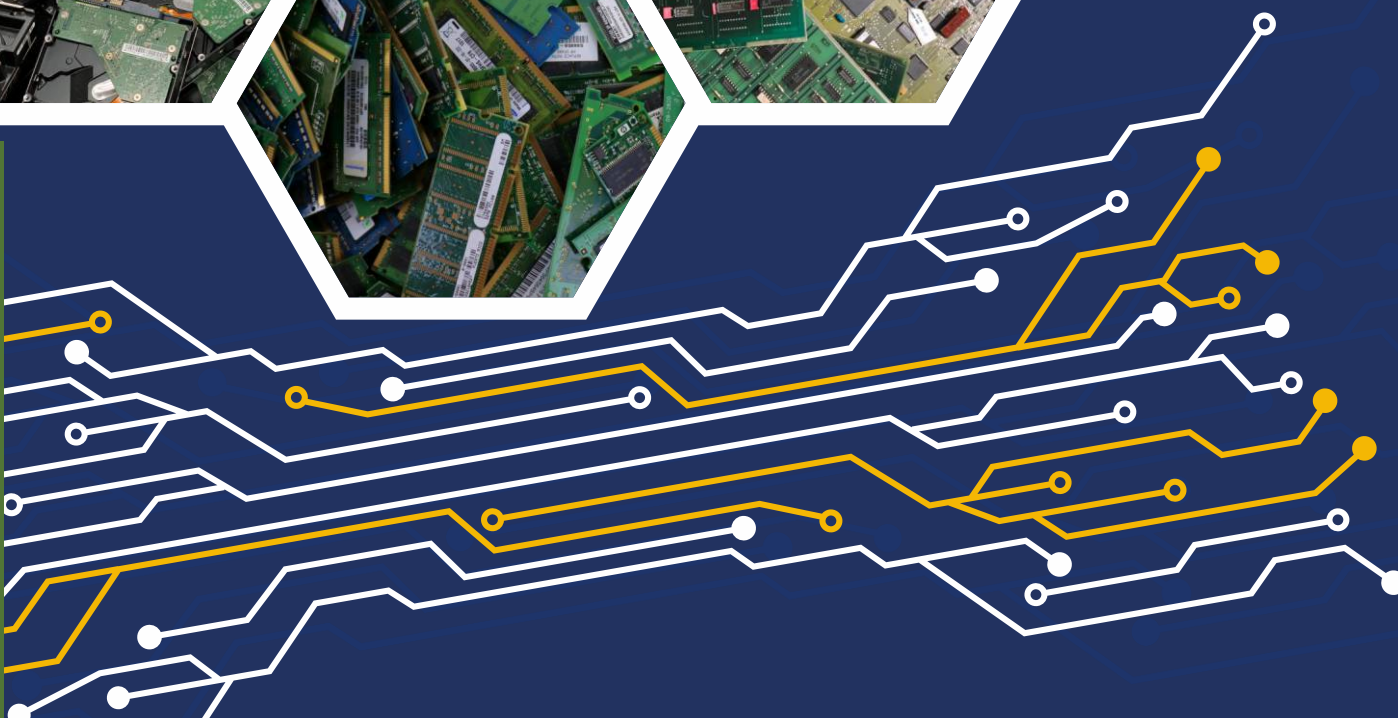

- Sweaters
- Garbage
- Wool bodies

Four Seasons FZE is a company that trades in multiple electronic scrap with a variety of e-waste including computer scrap, mobile phone scrap, printed circuit boards, tablet scrap, main circuit boards, servers and more. At Four Seasons Fze, our commitment is to offer a secure, and environmentally responsible solution for e-waste.

Our materials lists are as below that we handle :

- Laptops
- Tablets
- Modems
- Electric Meters
- Rams
- Printed Circuit boards
PCB (Pentium III /Pentium IV / Low grade brown etc..)
- TV Boxes
- Routers
- Servers
- Hard Disk

& other related e-wastes

Most of the Stocklot Plastic Film Rolls are readily recyclable and have a huge demand for different applications for wrapping, packing purposes. We are the buyer and seller of stocklot of plastic film rolls. Our traded rolls can be used in recyclable industries to convert it into reusable form for various products. To give a second life to rejected, defected stocklots coming out of plastic packaging manufacturing companies we act as a trader for various qualities in paper plastics stock lots being sourced from various countries & companies.

Qualities we mainly deal printed & non printed:

- PE
- PP
- PE/PA
- PP/PA
- PET
- PA
- PVC
- Colored Films
- Alu-laminated / Metalized Films
- Co Extruded Complex Films
- Poly-laminated Films
- Films With Glue/adhesive

& other related Plastic Stocklots
